# MERIDIAN MONITOR

MARKET NEWS AND INDUSTRY INFORMATION FOR MERIDIAN'S VALUED CUSTOMERS

## Almond Update

The market remains quiet with the majority of buyers, especially EU, taking a long Easter break. Most trades going on by second hand and limited amounts from origin. BV Std 5% being traded by second hand between 5-10¢/lb less than what's being quoted out of California. Nonpareil sales are limited but with price consistency between origin prices and second hand. The majority of buying interest is for new crop with limited participation from California packers. Offers for BV Std 5% at USD \$1.70/lb, NPS 23/25 at USD \$2.25/lb; no offers on CAL SSR 27/30.
