

## Meridian Nut Growers Market Update

---

2/15/2011

Market remains quiet with buying interest picking up in Europe and parts of South America. Rumors are that Iran is running low on quality product and have started to raise prices.

Please see attachment.

Walnut market is quiet, not for lack of demand but for lack of product. January shipments were up 20% compared to last year, with 62% of the crop already sold.

Raisins market is starting to firm on golden raisins.

Prunes market remains the same

1625 Shaw Ave  
Clovis, CA 93611
